Train turnaround / five views

Front, back, right side, top and rear-right three-quarter. Same station arrangement; generated proportions remain illustrative.

Texture atlas / proposed material tiles

Flat color/material draft for later UV mapping. Fire and smoke remain separate particle effects.

ROW 1 / TOP

1 Teal hull paint
2 Ivory cockpit trim
3 Amber rail trim
4 Dark chassis steel

ROW 2

1 Deck planks
2 Furnace casing
3 Sooty firebox interior
4 Seat rubber

ROW 3

1 Radio casing
2 Speaker grille
3 Exposed metal
4 Table wood

ROW 4 / BOTTOM

1 Lamp lens color
2 Horn button red
3 Control panel background
4 Neutral metal trim

Columns read left to right.

AUTHORING NOTES

Not yet UV-bound to a model.
Assign tiles to the separate modules.
Add UV gutters and edge padding.
Choose final pixel density and texture size.
Author gauge/icon decals and masks separately.
Test sampling, compression and mip behavior.
Grille holes are texture details, not geometry.
No fire or smoke baked into this atlas.
